CatchLength ground truth

Date _____ Place _____ Measured by _____

Snout against the stop. Fork: inside of the tail fork. TOTAL: tip of the tail, lobes closed. Nearest 0.5 cm.

Tags run 1, 2, 3 ... across the whole day, never restarting at 1. 2nd fork / 2nd total: lift, re-lay, re-measure.

Per batch, on the back: clip file names, time, number of fish, which tiles were in view.

batch	tag	species	fork length cm	2nd fork	TOTAL length cm	2nd total	notes (curled, damaged)

Species: skipjack (balaya) · kawakawa (attawalla) · Indian mackerel (kumbalawa) · frigate tuna (alagoduwa) · bullet tuna

Stopwatch, 10 fish by hand (measure + write): ____ min ____ s

Stopwatch, the same 10 for the agent (lay out + tag + film): ____ min ____ s
